## PROJECT STATEMENT

I completed this series at different times between 2014 and 2018. Each photograph reflects a search and it is an honest reinforcement of what was lived and experienced. In most of the pictures, I am moving around walking through the streets . In others, I am standing motionless behind a curtain, just projecting a shadow being reflected on a mirror, immersed in my surroundings, always observing myself and observing, in a certain way, the self portrait. Beyond the allegories, I reveal my thoughts about fadings and traces of time. The places where I show myself are not relevant in my work. It is sort of a personal cartography, as if my photos were my steps and if I were guided by the invisible power of intuition.

That accurate compass that adjusts itself to our emotions and perceptions. I am interested in the self portrait; it is introspective. By doing so, you become aware of yourself, of its meaning, of its value, of its significance. Fracciones is an exploration of my inner world that I invite you to know.

## ARTIST STATEMENT

I believe that something personal is always a good start. My photographs always carry something autobiographical, just a few drops of my own essence. I leave an echo of myself in the captivating details that arouse my interest. I feel the impulse of following my intuition as if the path had already been traced and I am discovering it. My series were produced in different cities but the place is not important in my work since it is rather about a personal cartography. I tend to illuminate the intimacy of existence. A surrounding darkness and the beauty that emerges from it is an invitation to discover what I emphasize and what I leave in silence. And just like this imagining the story. Among shadows, fiction and light, I find myself.
